

Curriculum Vitae

Anders Liljegren Senior Project Manager

Born 1966
Residence Stockholm, Sweden

Introduction

Anders got power of initiative and has a very structured way of working. He is focused to reach the target for his Project (or department) and has a long experience from complex System solutions and technical projects. Technical competence in combination with good communication skills makes it easy to adapt to new assignments.

Preferred type of Positions

Manager for a department or team working with complex System Projects within the IT and Telecommunication areas such as: Program Management Office, Demand Management, Requirement Specification, Pre-studies, Development, Acceptance, Procurement, Implementation, Rollout, Integration and Operation.

Experience

Anders has got a long experience from the IT & Telecommunication Industry (33 years). The Consultancy experience is 23 years with his own company.

The jobs/assignments have mainly been with Telecom Operators and manufacturer of Telecom Systems. Anders got good recommendations from Ericsson (Canada, Australia, Israel, Sweden and USA), Net1, Tele2 Europe, Millicom, Tele2 Sverige, Huawei, Telenor Sweden, Ooredoo Qatar, NEC, IP-Only and Teracom.

Security

Anders was classified at level 2 during an assignment at Teracom (2020-2021).

Personal qualities

Anders is well focused on the task and got power of initiative. Other qualities include: ambitious, decisive, methodical and quality awareness.

- Planning, (detailed) forecasting, ordering, invoicing, follow up of budget and risk management
- Co-ordination between parties involved in the Swedish Project (Telenor, Huawei, Axians, Network Services etc.).

Aug 2013-Aug 2015

Ooredoo Qatar * Director Demand & Project Management

The department "Demand and Project Management" under CTO serves as focal points for critical Project Management & Deliveries.

The department is the entrance for all Technology requirements from other Business Units

- Responsible for delivery of critical Network and IT Programs and Projects
- Coordination of Network and IT expansion/roll-out
- Coordination of System Integration Testing across impacted IT platforms and Core Network domains.

Anders target was to recruit the best and most talented people to this fairly new department. In the end a very good team was setup of four direct reports and in total 25 staff. The focus was on training, development and to strengthen the team. Concerned processes were improved especially around Project Governance, SIT and Demand Management but also the complete end to end product development process which was very important for the success of the company.

Anders was also heavily involved in process improvements and the strategically most important programs and projects including the Al Jazeera Global Media Cloud Program and the major FTTx/fiber rollout Program.
